You are invited to the May 26 lunch in the Research Partners Lunch Series. The goal of the lunch series is to introduce research topics for the development of research partnerships across disciplines. These partnerships can serve as a foundation for interdisciplinary research endeavors, grant proposal writing, course development, and innovative research applications. Different researchers from across the University are invited to brief a research topic each month for potential research partners. The lunch will begin at noon and the presentation will begin at 12:15pm.

**Dr. Laura Myers will speak on research and applied applications of drones (UAVs). UAVs are being used in law enforcement, weather, emergency management, and other fields. This presentation will cover various applications and the associated research endeavors that can accompany the use of UAVs.**

**Kindly RSVP your attendance by Sunday, May 22<sup>nd</sup> via the link below so we can reserve your lunch.
